

# Jordan High School Robotics

## *FIRST* FRC Team #6411

2019-2020 Season

### Benefits of Sponsorship

With your help, we can maintain and grow our robotics program, continue to spread the STEM through robotics message to the youth in our community, gain new learning experiences along the way, and help provide us access to exciting future opportunities in the STEM field. We do not receive any school funding – our sponsors make everything we do possible!

We show our thanks to our sponsors by placing your company or organization logo on our banner, team shirts, and our competition robot as outlined below. We display our banner at community outreach events such as STEM Fest, as well as at competitions, and team members wear their team shirts to all events as well. Logos are proportionally sized by level of sponsorship.

---

#### \$5000+

- Commemorative Jordan High Beet Knife for display
- Logo on robot
- Logo on banner
- Logo on team shirts

#### \$2000+

- Logo on robot
- Logo on banner
